LECTURE SERIES 2015-2016

# SEXUALITY, HEALTH, AND HUMAN RIGHTS: Fulfilling the Promise of Health & Human Rights for All

Tuesday, October 27, 2015 | 12:00 p.m. - 1:30 p.m.  
Franklin Room Suite TCC 350, Ronald Tutor Campus Center  
USC University Park Campus

— Lunch Provided —

We are at an important crossroads in the global struggle for sexual and gender-related human rights. This event will bring together trailblazing academics, policymakers and activists who continue to pioneer this historic movement. As the panelists consider how the conceptual shifts to which they have contributed impacted the lived realities of sexual and gender minorities around the world, they will also delve into subsequent breakthroughs, backlashes and future possibilities. Join us for vivid discussions with leading human rights experts who have created previously unimaginable social change. Hear about the participants' work, which began in the 1980s when they successfully pressured Amnesty International to defend the rights of lesbians and gay men. Discover how this work has informed ongoing social justice campaigns on the relevance of sexual orientation and gender identity-related rights to a number of domains, from local struggles for inclusive justice to the United Nations Sustainable Development Goals. The continued evolution of this work raises key questions: How does change happen? What does it take for movements to sustain themselves? And what are future issues for academic and activist work at the intersection of sexualities, genders and rights?
