

2011/12 GLOBAL HEALTH LECTURE SERIES

MAR 6 DISEASES WE CAN STOP BUT DON'T

Peter Hotez

*Professor of Pediatrics and Molecular Virology and Microbiology, Baylor College of Medicine
Founding Dean, National School of Tropical Medicine*

More than one billion people suffer from one or more of the neglected tropical diseases, almost exclusively in rural areas of poverty in the developing world. At least six of the seven neglected tropical diseases coexist in some fashion in over 75 percent of countries in Africa.

“In terms of both health impact and cost-effectiveness, few other interventions can rival mass drug administration for NTDs...”

– Peter Hotez

12:00-1:00pm
Soto Building, Room 105
USC Health Sciences Campus

Lecture co-hosted by:
